It is a violation of BYU-Idaho Honor Code to post or share this document with others or to post it online. Storage into a personal and private repository (e.g. private GitHub repository, unshared Google Drive folder) is acceptable.

Question 1: For the rotate right problem, provide a description of how you solved the problem.

Question 2: For the rotate right problem, draw a picture of how you solved the problem.

<u>Remember:</u> You need to commit all the changes to the prove-01-<username> repository along with this document. Then submit a link to the repository in I-Learn.

country from the end to the beginning to be shifted from the end to the beginning.

I created a list to contain the number of positions needed to be shifted, then

I shed them into on list that remove those numbers from the original list

and justed them to the front of the hist.

1,2,3,4,5,6,7,8,9

amount = 4

2,3,4, 5,6,7,8,9

1,2,3,45, -,-,-

brings numbers to the front, pushes others to the back.

6,7,8,9,1,2,3,4
